

POWERPLEX 2017

May 8 – 11, 2017

Atlanta Marriott Marquis | Atlanta, GA

WE MAKE THINGS

Make an Impact with the Power of the Plex Manufacturing Cloud

Join over 1,100 members of the Plex community at PowerPlex 2017, an annual celebration of the successes of our customers and the impact makers have on the world around us. Share best practices, learn about new developments shaping our industry, and discover how to leverage the full potential of the Plex Manufacturing Cloud.

Four days of in-depth learning: Function-based conference tracks mean a wide range of session offerings for multiple members of your team. From the shop floor to the top floor, everybody will benefit from the learnings at PowerPlex.

Starter courses vs. deep dives into advanced topics: PowerPlex makes it easy for users at all experience levels to design personal agendas through basic vs. advanced session designations. Extended learning sessions on Thursday morning allow attendees more time to dive into advanced topics.

Hands-on training workshops: Take advantage of in-depth training from the Plex Education Services team. Optional hands-on workshops take place Monday prior to the official conference kickoff and are structured to take a deep dive into topics through hands-on interaction and experiential learning exercises.

Invaluable networking and peer exchanges: Dedicated time for industry peer exchanges, hot topic peer exchanges, and special interest events, like our 3rd annual Women Leaders in Manufacturing and Technology event, are built right into the agenda.

Experience Atlanta: Experience the tastes and sounds of Atlanta on Wednesday's open evening and enjoy the festivities of PartyPlex 2017 at this year's mega block party—we'll make sure it's an experience you'll never forget!

THE HEARTBEAT OF POWERPLEX

The Plex Experience and Solutions Expo is a central location at the conference where you can learn, connect, and play! Interact with partners and product experts while checking out cool product demos. Whether you dedicate a few hours or stop by for short visits, you can be confident it'll be time well spent.

Visit www.plex.com/powerplex for the full agenda and conference details.

An Immersive, Educational Experience You Can Use Back on the Job

Shop Floor Execution

Discover best practices and hear customer stories on production control, inventory management, reducing waste, and unparalleled quality.

Platform and Technology

New identity management and role-based access control options, expanded integration capabilities throughout the enterprise, and an advanced reporting and analytics platform are just some of the applications and functions explored in this track.

Supply Chain Management

Get an end-to-end look at Plex's robust supply chain planning and management capabilities to help you achieve an effective and accelerated supply chain.

Business Management

Learn how to leverage tools for maximum resource utilization and making informed business decisions in Plex. Manage your business for profitability, compliance, and growth.

Manufacturing Management

Enhance your operational excellence and get the most from Plex to ensure your production operations run smoothly, efficiently, and cost-effectively.

Industry Trends: Discrete and Process Manufacturing

Gain insight into what's happening in the world of manufacturing so you can understand your competitive outlook and take advantage of new opportunities.

WE MAKE LEARNING FUN

PowerPlex injects plenty of fun into the myriad of professional development opportunities available to you at this annual gathering of the Plex community. With networking, games, and spotlights on customer successes, it's a unique and memorable experience that you don't want to miss.

Come experience the energy and be part of the buzz! Register at www.plex.com/powerplex

Roadmap Sessions

Get a first look into the development roadmap at Plex. Plex development engineers and subject matter experts take you on a deep dive into what's in store for product enhancements.

Optional, Hands-on Workshops

Optional workshops give you a deeper look into specific topics through hands-on interaction and experiential learning exercises.

Industry and Hot Topic Peer Exchange Discussions

Participants discuss common interest topics and contribute their ideas, questions, and challenges so others can benefit and learn from hearing the experience of their peers.

Plex Experience Lab

Connect with Plex product experts and support leaders during hands-on, experiential demos. The lab is an extension of the learning experience at PowerPlex and allows you to check out new product developments and revisit existing functionality that you may not be fully leveraging today.
