PowerPlex 2019

May 13 – 16, 2019
Cobo Center | Detroit, MI

|connect

Connect to Manufacturing Success with the Power of the Plex Manufacturing Cloud

Join over 1,200 Plex community members at PowerPlex 2019, an annual celebration of our customers' successes and the impact makers have on the world around us. Share best practices, learn about new developments shaping our industry, and discover how to leverage the full potential of the Plex Manufacturing Cloud.

- Four days of in-depth learning and hands-on workshops.
- Functional conference tracks for multiple members of your team.

- Hands-on learning at the Plex Experience Lab, Solutions Expo, and UX Basecamp.
- Invaluable peer exchange and networking opportunities.

Product Expertise · Hands-On Demos · Partner Resources · UX Transition Basecamp · Recharge Lounge & Work Areas · Gamification & Giveaways · Networking

PLEX EXPERIENCE LAB & SOLUTIONS EXPO

The Heartbeat of PowerPlex

The Plex Experience and Solutions Expo is a central location at the conference where you can learn, connect, and play! Interact with partners and product experts while checking out cool product demos. Whether you dedicate a few hours or stop by for a short visit, it'll be time well spent.

Visit **www.plex.com/powerplex** for the full agenda and conference details.

PowerPlex: Your Platform to Customer Success at Plex

- Learn from, connect, and collaborate with Plex product experts, partners, and thought leaders.
- See what's new in the lab and get the latest on the development roadmap.
- Network, share experiences, and learn from customers like you.
- Make an impact on the job with new knowledge gained.

*New Plex UX Transition Basecamp: Participate in instructor-led demos and play in the UX sandbox as we walk through some key highlights of the UX interface, transition tools, and more.

POWER PLEX

An Immersive, Educational Experience You Can Use Back on the Job

Platform and Technology
Learn about the latest in tools for administrators, business analysts, and IT professionals including: APIs, EDI, IAM/SSO, and mobile functionality.

Business Management
Learn how to leverage tools for maximum resource utilization and making informed business decisions in Plex. Manage your business for profitability, compliance, and growth.

Iot and Analytics *new*
Explore meaningful insights from shop floor data, and how manufacturers can depend on these insights for solving problems in the areas of maintenance, efficiency, and quality.

Supply Chain Management
Get an end-to-end look at Plex's robust supply chain planning and management capabilities to help you achieve an effective and accelerated supply chain.

Manufacturing Management
Enhance your skills to get the most from Plex to ensure your production operations run smoothly, efficiently, and cost-effectively.

Industry Trends
Gain insight into what's happening in the world of manufacturing so you can understand your competitive outlook and take advantage of new opportunities.

Roadmap Sessions
Get a first look into the development roadmap at Plex as our development engineers and subject matter experts take you on a deep dive into what's in store for product enhancements.

Hands-on Workshops
(new courses)
Optional workshops give you a deeper look into specific topics through hands-on interaction and experiential learning exercises.

Industry, Hot Topics, and Peer Exchange Sessions
Participants discuss common interest topics and contribute their ideas, questions, and challenges so everyone can benefit and learn from hearing the experience of their peers.

Customer Success
Gain insights on how to navigate the resources, tools and programs available to you to ensure customer success and continued alignment with Plex.

Can't Miss General Sessions

Opening Keynote
Meet Plex CEO, Bill Berutti, and hear about exciting developments on the horizon. Get the latest in product development and hear real stories of success on the shop floor from customers like you.

Plex in the Labs
Back by popular demand! Join Plex Chief Technology Officer and co-founder, Jerry Foster, for an animated look at what's new in the Plex Labs as we continue to redefine the cutting edge of manufacturing technology.

Plus 2019 Plex Impact Awards and Special Guest Speaker to be announced!
