

# THE BENEFITS OF AN END-TO-END ERP SOLUTION

For process and discrete manufacturers

## 1 Top challenges manufacturers face due to lack of visibility:

## 2 An End-to-End ERP solution provides true visibility and improves your strategy.

## 3 Leading manufacturers are 2.2x more likely to have an end-to-end ERP solution

**VS**

### Benefits from an end-to-end ERP solution are improved:

- Collaboration
- Real-time Visibility for agile decision-making
- Effectiveness & Efficiency
- Quality & Compliance

### Manufacturers with an end-to-end ERP solution:

- 2.8x as likely to be able to execute recalls
- 8% higher profitability
- 2.3x as likely to have the ability to share and integrate data with the extended enterprise
- 52% more likely to have real-time visibility into the status of all processes

Ready to reap the benefits of a single end-to-end ERP solution?
