

THE PLEX MANUFACTURING CLOUD

Education Services All Access Pass

Incorporating the Plex Manufacturing Cloud® into your business processes can deliver significant value to the company and to all of the people involved. In order to ensure your success, you should consider a comprehensive plan for educating all of the contributors who work with the system. Because Plex is such a central part of running your manufacturing business, it is critical that each organization learn as much as possible about how to use Plex to optimize their productivity as well as working with others throughout the organization.

An effective training program is one of the most important elements of your Plex deployment. Education begins during the preparation phase but does not end at “go-live” of the system. The Plex Manufacturing Cloud has both broad and deep capabilities that can be tailored to suit your business needs and with Plex’s continuous innovation model, it continues to improve with enhancements and new features released all the time. As your employees become more familiar with the fundamentals of using Plex, they should leverage additional education opportunities to learn more about how Plex can continue to add value.

All Access Pass

The All-Access Pass (AAP) offers you subscription-based access to our entire self-paced course library. AAP makes education services readily available to everyone in your company. As the name implies, all users have access to the entire online Education Services catalog that Plex has to offer for just one annual subscription fee.

Exclusive Additional Assets

With your All-Access Pass, you have expanded access to the Plex Education Portal (PEP). PEP contains a continuously growing collection of training assets and other content to support and enhance your learning. From PEP, you can download and print course materials, take assessments, participate in polls, view on-demand content related to the course, and view previously recorded training sessions.

THE PLEX MANUFACTURING CLOUD

Education Services All Access Pass Benefits

Enable your company to participate in training activities as appropriate throughout the year.

Access all content at one annual budgeted fee rather than budgeting on a per course basis.

Learn on your own time with previously recorded live sessions.

Educate more of your staff with minimal travel expense and schedule disruption.

Take interactive courses to simulate Plex business processes and “try out” the software.

Encourage continuous improvement in using Plex best practices and explore beyond the scope of your initial deployment.

Practice and apply learning using course participant guides, step-by-step guides and other assets.

As a team leader, manage your users and view valuable usage reports.
